EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Change the title to read --Multi-carrier ~~Multi-carrier~~ Watermarks Using Carrier Signals Modulated with Auxiliary Messages--.

Amend the paragraph that begins on page 1, line 4, to read:

--This application is a continuation of US Patent Application No. 09/619,266, filed July 19, 2000, now Pat. No. 6,594,373, which is hereby incorporated by reference. This application is also related to US Patent Application No. 09/503,881, filed February 14, 2000, now Pat. No. 6,614,914, which is hereby incorporated by reference.--

2. The following is an examiner's statement of reasons for allowance: None of the prior art teaches or suggests the invention, as variously claimed. Specifically, while Rhoads et al. '031 teaches the use of carriers of different spatial frequencies to modulate first and second messages to be steganographically encoded in a host signal, Rhoads et al. '031 fails to suggest that these messages can be decoded by selectively providing the host signal to a predetermined state corresponding to either the first or second frequency and obtaining either the first or second message at the predetermined state, as required by claim 1. In addition, Rhoads et al. '031 further fails to teach or suggest that the encoded first and second messages are generally

imperceptible, but machine readable at first and second image resolutions, respectively, as stipulated by claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The various references were all cited in the parent application, and are therefore made of record herein.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Johns whose telephone number is (703) 305-4788.
